# *Transportation Costs Upside Down?*

With uncertain fuel costs it makes sense now more than ever to hone in on the best dollar value in transportation...ship via rail, Progressive Rail!

A

roof over your head...actually that's just the beginning. How about a split truss system with French or English Tudor style home with the hallmark steep pitched roof, or maybe a curved veranda in any architectural style you've always dreamed of **Villaume Industries** will deliver a key component on time and at the right price! **Villaume Industries** is the Twin Cities premier custom manufacturer of everything from the simple 4/12 pitched roof all the way up [literally] to the most complex roof that ultimately becomes the silhouette of your favorite architectural masterpiece.

It also doesn't hurt that **Villaume Industries** is a 4th generation company with decades of engineering and fabrication experience behind the most important investment of your family's single largest investment...your home!

Providing for your family is what it's all about, so be sure to choose **Villaume Industries** trusses, as there is a real difference...and you can see it firsthand all of the quality that goes into a **Villaume Industries** truss by visiting their website [www.villaume.com](http://www.villaume.com) or by calling **Nick Linsmayer** at **(651) 688-3111** you see!
