CUSTOMER SPOTLIGHT

# sappi

Fine printing paper is the undisputed medium of choice for communicating societies thoughts, ideas and aspirations amongst a world evermore hungry for information.

Yes, it is truly the information age and a big part of delivering a colorful, dynamic display of your favorite brochures and magazines goes to great paper companies like **Sappi Fine Paper**, more specifically, their state-of-the-art paper mill located in Cloquet Minnesota. Of course before you see the finished product on a consumer level there needs to be a constant supply of good quality wood fiber, or basically 8' logs to form the pulp slurry base of what becomes the start of making fine paper. Interestingly **Sappi Fine Paper** is now reaching out to Southern Minnesota to partner with logging companies, excavating/land clearing firms, tree removal contractors and anyone that owns a stand of timber they would like to turn into cash. Once the product is ready to go **Sappi Fine Paper** offers a super convenient truck to rail load out center located in Randolph Minnesota. From there the pace quickens, as the logs will soon be riding on a merchandise freight train destined to Cloquet Minnesota!

Options are good and **Sappi Fine Paper** now offers a great outlet for your logs!

To learn more about just how fast you can be paid, along with the full range of services offered that make this so easy, call Tom Cunningham [Procurement Forester] with **Sappi Fine Paper** at 218-591-3162, or give Seth Johnson a call with Johnson Logging Company, he is coordinating the local pickup and load out of railcars.

Seth can be reached at 651-775-9676 or 507-263-5711.
