## CUSTOMER SPOTLIGHT

### 84 Lumber

Everyone knows there is a difference in the quality of lumber from one species to the next. An Aspen 2" x 4" is no match for a Canadian Fir 2" x 4", yet both have different roles to play in the residential and commercial construction industry and that's just the beginning of a myriad of construction products to choose from! Helping you navigate through all of these choices is why, like lumber, there is also a vast difference from one building materials and services supplier to the next.

**84 Lumber** is a true professional contractor's center staffed by experts who know all the nuances and specifications of their entire product line. So no matter if you're selecting asphalt shingles for your home or having an estimating professional look over a blueprint ranging from a single-family home to an elaborate multi-family development, you can count on **84 Lumber** for quality, value and commitment to their builders. You will notice the difference the moment you walk through the door!

Check out the new Lakeville Minnesota and Hugo Minnesota contractor's centers! To learn more about what a family owned company like **84 Lumber** could do for you, call Ted Merriman in Lakeville @ (952) 469-8875.
